A library might want to investigate the need for or usefulness of new technologies or the latest trends in library services, might become aware of a specific problem as a result of user complaints, or because of impending budget cuts might have to look at staffing levels in particular departments. Dougherty stresses that careful diagnosis of what needs to be studied is a key to success, and he ...

Streamlining Library Services will serve the greatest need in library management courses, where library school faculty and students sometimes struggle to understand the "real world" of library management. This book effortlessly blends theory and practice, with examples torn from the pages of many library directors' playbooks, and should do a fine job of making management theory have real ...
