### **100 People: A World Portrait**

There are approximately 7 billion people on Earth today. At such a large scale, it's hard to visualize how we compare to one another, but it's much easier if we imagine there were only 100 people.

I will also not be representative if we choose 100 people from Madrid, or choosing all your friends and your family. There are some topics which should be clearly defined once we want to sample: 1. The selection method for the elements of the population (sampling method to be used). 2. Sample size. 3. Reliability degree of the conclusions that we can obtain, this is, an estimation of the ...
